The relevance of references AA, AB, and AL-AP was discussed in the Specification. References AM, AO and AP were also cited during the prosecution of the German priority application. References AA, AB, AL and AN are in English, so

no further commentary on their teaching is required. Reference AM is a German patent document—reference AC is a corresponding English language document. References AO and AP are German language patent documents discussed in the Specification—a full translation of these documents will be produced at the request of the Examiner.

The filing of the present Information Disclosure Statement is not to be construed as a representation that a search has been made, and is not to be construed as an admission that the information cited in the present Information Disclosure Statement is, or is considered to be, material to patentability as defined in 37 C.F.R. §1.56(b).

The above citation of related art is not a representation that such art constitutes a complete or exhaustive listing of all pertinent related art, nor that it necessarily includes the closest or most relevant art. The aforementioned citation comprises a voluntary citation of related art of which applicant and his attorney are presently aware and is not intended to serve as a substitute for the Examiner's own search.
